Consulting Agreement

1. Parties to the Agreement

Winston Wood oy (8123844-9) (hereinafter "the Client")

Clean Code oy (1841223-5) (hereinafter "the Supplier")

2. Contact Persons

The Client's contact person: Willy Winston (040 283 5744, winston@winstonwood.fi)

The Supplier's contact person: Cecilia Hansen (050 174 5102, cecilia@cleancode.fi)

3. Scope and Purpose of the Agreement

The Client purchases consulting services from the Supplier for the Client's project.

The Project: Inventory system development

Consultant's role: Software Developer

The Client assigns consulting tasks to the Supplier within the scope of the Project.

4. Time and Material Billing with Allocation

The Client pays 98 €/hour + VAT for consulting services.

During the term of the Agreement, consulting is based on an agreed allocation, which at the commencement of the Agreement is on average 37.5 hours per week. The Client has the right to reduce the allocation by providing the Supplier with 4 weeks' notice in advance.

If the tasks assigned by the Client to the Supplier do not meet the agreed allocation during a billing period, and the Client does not provide additional tasks for the Supplier, then the Client shall pay – and the Supplier is entitled to invoice – an allocation credit. The allocation credit amounts to 30% of the unfulfilled allocation (the difference between realized hours and the agreed allocation). Should the Supplier not meet the allocation due to reasons attributable to the Supplier, the Supplier is entitled to invoice only the actual hours.

Billing consists of a combination of allocation credits and consulting hours as described above and possible additional expenses, such as travel costs. The Supplier will send the invoice to the Client monthly in arrears. The Client shall instruct the Supplier in writing regarding how the invoices shall be

sent. Should the Client not provide such instructions, the Supplier may send invoices to the Client in any reasonable manner deemed appropriate by the Supplier.

An itemization of billed hours will be included with each invoice.

The Supplier has the right to change price reasonably once per year by notifying the Client in writing at least one month before the effective date of the change. The first price change may take effect no earlier than 12 months after the effective date of this Agreement.

5. Validity

The Agreement becomes effective on 19.06.2025 and is valid until further notice.

Either party may terminate the Agreement with 4 weeks' notice.

If the Client does not pay an invoice in full within the agreed payment term, the Supplier may send a written payment reminder. If the Client does not pay the invoice within 14 days of sending the payment reminder, the Supplier may at Supplier's discretion suspend or terminate the Agreement with immediate effect by unilateral notice. In such event, the Client is obligated to also pay the allocation credit corresponding to the normal notice period.

6. Consultant

Cecilia Hansen (hereinafter "The Consultant") will perform the consulting services.

The Supplier may not change the Consultant to another person without the Client's written consent. If the Consultant is unavailable due to illness or other reasons independent of the Supplier, the Supplier will notify the Client without undue delay, and consulting is suspended for such time without consequences for either party, unless the parties agree on alternative arrangements.

7. Subcontracting

The Supplier may not use subcontractors without the Client's written approval.

8. Independent Contractor

The Client is not the Consultant's employer. The Consultant is not an employee of the Client. This Agreement or consulting services thereof will not create employment relationship between the Client and the Consultant. This Agreement does not restrict the Supplier from making other agreements with other clients and companies.

9. Payment Terms

Invoices must be paid within 14 days net from the invoice date. Interest on delayed payments accrues in accordance with the Finnish Interest Act (korkolaki).

10. Provision of Services

The consulting services are provided primarily remotely within the Client's normal working hours. The Supplier shall equip its Consultants with the necessary working space and ordinary work tools and equipment for carrying out the assigned tasks.

11. The Client's Software and Tools

The Client shall arrange and provide for the Supplier, at the Client's cost, necessary rights to use and access any and all systems, cloud services, software, and other services as well as other than ordinary tools and equipment that may be used by the Client and/or otherwise required to carry out the Services.

12. Compensation for Extraordinary Hours

If the Client specifically requests the Consultant to perform consulting outside normal working hours, these hours will be billed with an additional fee of 49 €/hour + VAT on top of normal hourly fee. Normal working hours in this context mean 7.5 hours on weekdays, occurring between 08:00-18:00. Weekends, holidays, and pre-agreed vacation periods are outside normal working hours.

For clarity, a request to work overtime constitutes extraordinary working hours even if the Client does not specify the exact hours during which overtime work should be performed.

13. Travel Compensation

Travel within Helsinki metropolitan area will not be charged for in any way.

Should the Client require the Consultant to travel outside the aforementioned area, the Supplier has the right to charge separately for reasonable travel and accommodation costs, travel time hourly compensation, as well as per diem and kilometer allowances. Per diem and kilometer allowances are charged according to the then-current Tax Administration's guidelines. Travel time hourly compensation is 25 €/hour + VAT. Other costs are charged according to actual expenses.

14. Intellectual Property Rights

All transferable copyrights and other intellectual property rights of deliverables resulting from consulting services shall transfer to the Client upon payment of the respective corresponding invoice(s). These rights of the Client shall include unlimited right to assign, transfer and modify – or have modified - such rights.

For clarity, the above does not apply to open source software that the Supplier may deliver to the Client in connection with or as part of consulting services or deliverables thereof. Unless otherwise agreed, the Client has the right to use these for the Client's own internal operations and grant corresponding licenses to the Client's group companies. Transfer or sale of such licenses to third parties shall not be considered as the Client's own internal operations. Furthermore, separate license

terms that are specified in the applicable software documentation, readmes or notice files shall apply to such open source software. Client's rights to such open source software under such separate license terms are not restricted by the Agreement.

15. Processing of Personal Data

The Client may provide Personal data to the Supplier for processing on the Client's behalf only if the parties agree upon such processing and related terms in writing in advance.

16. Confidentiality

The parties commit to keep confidential, during the term of the Agreement and for three years thereafter, any information and material received from the other party that is either marked as confidential or reasonably understood as such.

17. Reference

The Supplier has the right to reference the Client in marketing as the Supplier's customer. These rights survive the end of the Agreement.

18. Warranty

The Supplier shall be responsible for ensuring that the consulting services are performed with due care and in professional manner.

The consulting services corresponding to an invoice are considered to be accepted by the Client if the Client has not notified the Supplier in writing of any objections by the due date of the invoice.

The Supplier shall correct the errors or re-perform consulting services at its own expense, provided that the Client notifies the Supplier of the error in writing by the due date of the invoice concerning the respective services. The duties set forth in this section define Supplier's sole responsibilities and liabilities as well as exclusive remedies available for the Client in case of the any errors or deficiencies in the consulting services or deliverables thereof.

19. General Responsibilities and Obligations

Neither party shall be liable for delay or damage resulting from an impediment beyond the party's control and whose consequences the party could not reasonably have avoided or overcome.

If a party finds that a delay affecting consulting will or is likely to occur, the party shall without delay notify this and its effects on consulting in writing to the other party.

Each party is responsible for making decisions necessary for the performance of the Agreement without delay. Each party has an obligation to contribute to the provision of the Agreement in respect of factors that are under the command or control of the party.

The Client shall be responsible for information, instructions, and orders which it provides to the Supplier as well as for the suitability of the services and deliverables for their intended use when provided accordingly. The Client is responsible for ensuring that the Supplier has timely access to sufficient material and information that the Supplier reasonably needs or requests for purposes of providing the consulting services.

Each party has the right to terminate the Agreement if the other party materially breaches the terms of the Agreement and will not correct such breach within a reasonable period of time set in writing by the non-breaching party.

The maximum liability for damages towards the Client shall not exceed in aggregate 50 percent of the Agreement's total price, excluding VAT. If the Agreement continues for over a year, the Supplier's aggregate liability for damages for each contract year shall not exceed 50% of that contract year's actual aggregate billing.

Neither party shall be liable for any indirect or consequential damages.

However, the liability limitation defined in this section shall not apply to damages caused by willful conduct or gross negligence.

Notwithstanding the termination of the Agreement, such terms and provisions that by their nature are intended to remain in force after the Agreement ends, will survive termination.

20. Applicable Law

This Agreement shall be governed by the laws of Finland, without regard to its principles and rules on choice of laws. Any dispute, controversy or claim arising out of this Agreement, which cannot be resolved through negotiations within reasonable time, shall be resolved in District Court of Helsinki.
